Next.js	Nodejs	Redux	Bootstrap	Tailwind CSS
Rest APIs	Git	Framer	MongoDB	

Experience

Nuture Technology Service Ltd   October 2024 - Present
Software Engineer
🔗 https://nuture.tech/

- Led the development of **Zoid**, an estate management system that streamlines estate operations, including bill payments, security management, and resident control, using React, TypeScript, TailwindCSS, and Framer for animations.
- Designed intuitive admin dashboards for **Mbag Microfinance**, enhancing financial data management and accessibility with data visualization techniques.
- Built and integrated RESTful APIs with Node.js and MongoDB to improve data flow and application performance.
- Collaborated with designers to optimize interfaces, boosting sales conversions by 20% through improved user experience and design enhancements.
- Enhanced code quality and efficiency, reducing post-deployment issues by 25% through code reviews and thorough documentation.

Gameporte   May 2024 - December 2024
Frontend Developer
🔗 https://app.gameporte.com/

- Contributed to the development of a gaming platform that allows gamers to join and host tournaments across various games, fostering a competitive and engaging gaming community.
- Developed reusable custom components, reducing development time by 40% and increasing efficiency across multiple projects.
- Worked on the main web app, collaborating with designers, backend developers, and other frontend developers to create an optimized website, resulting in a 30% increase in user engagement.
- Implemented a user-friendly interface and launched subsidiary company websites, including an e-commerce platform, achieving a 25% boost in online visibility and a 20% improvement in user satisfaction scores.
- Developed an admin dashboard to help admins monitor and review the progress of the web app and e-commerce platform, contributing to a 20% increase in the company's growth.

Urize   September 2023 - May 2024
Frontend Developer
🔗 https://urize.app/

- Worked on the development of **UriZe**, a media technology marketplace connecting creators with opportunities to showcase and monetize their work, streamlining the buying, selling, and investing of film and TV rights in emerging markets.
- Developed and enhanced the frontend components of dashboards, landing pages, and various other interfaces, leading to a 35% increase in user interaction.
- Implemented backend data endpoints to seamlessly retrieve and display dynamic content on the frontend interfaces, reducing data retrieval time by 25%.
- Ensured optimal user experience across various devices by making all interfaces responsive, catering to both web and mobile platforms, resulting in a 40% increase in mobile user engagement.
- Collaborated within a team environment, fostering effective communication and alignment, which improved project cohesion and success rate by 20%.

Freelancer   October 2022 - September 2023
Frontend Developer

- Proven ability to effectively communicate with clients to understand their project requirements, goals, and expectations.
- Created responsive and mobile-friendly web applications.
- Working with creative product designers in building and designing client specific websites.
- Experience in providing regular project updates, addressing client feedback, and managing client expectations throughout the project lifecycle.

HNG INTERNSHIP   August 2022 - October 2022
Frontend Developer Intern

- I collaborated with a team on various projects and developed effective approaches for utilizing REST APIs to establish connections with the backend team.
- Participating in code reviews using GitHub to ensure peer contributed codes are up to standards.
- Engaged in collaboration with senior leadership.
- Proactively learning about new technologies

Projects

E-Commerce Website
🔗 https://shop.gameporte.com/

- Implemented a seamless and intuitive user interface to enhance the shopping experience for gamers.
- Collaborated with backend developers to ensure smooth data flow and functionality, contributing to an engaging and efficient user experience.
- Implemented responsive design principles to ensure optimal usability across various devices, including desktops, tablets, and mobile phones.

Estate Management Landing Page
🔗 https://zoid.ng/

- Positioned as a landing page for the ZOID estate management system, the site effectively showcases its features and functionality while advertising other ZOID products, serving as a hub for potential clients and stakeholders.
- Ensured proper state management to handle interactions and dynamic content effectively, optimizing data flow and enhancing the user experience.
- Utilized Framer Motion to create dynamic and visually appealing animations on the landing page, ensuring smooth transitions and interactions to enhance the user experience.

Education

University Of Lagos   Applied and Computational Mathematics
Bsc. Mathematics
